Schiffs Emission Rap

1. Verse

Everything you do is in slo mo
That ship's waving like a yoyo
Too much Gas thats a no go
You playin' with our earth like its yours tho
Too much carbon in the air
Our lives count too thats not fair
I hope we can live thats a swear
That emission kills our flaire
Millions on Millions you already spend
Hello? May i speak to the president?
You got a lotta work to do
Things you did were only right for you

Refrain (am schluss)*

All this shit is a blame
Everyday is still the same
My god its so lame
Don't you think its a shame
I'm not doing this for fame
You should stop its not a game
Meanwhile the sky is grey
You say we gotta pay?
And if you want that we stay
Then please don't go away
For the world you have to pray
And that's all i gotta say

2. Verse

Our city has a lot of history
How we got to this point is a mistery
You know we are the majority
While you are just a minority
The environment is crying
Because our animals are dying
Let's do something for charity
And bring in some clarity
And stop thinking 'bout the bill
It is in our will
Don't let the port overflow
And be a hundred percent real

Refrain*
